

Build Your Personal AI OS

NEBOYSHA VIDENOV

WELCOME!!!
PREPARE
WE ARE
STARTING SOON!!!

Mythos

α

**Information or position
others do not have.**

Goal

α = your context + AI

Building your personalized, organized, digital, knowledge skeleton

Socrates ↘

Nebo ↘

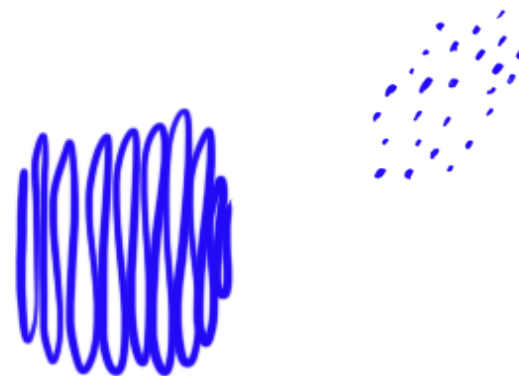

“I can not teach anybody anything, I can only make them think.”

Socrates

Agenda

- Small demo
- Setting up personal AI OS in claude code/codex/other tool
- Q&A

Why now?

Framework

Capture

Organize

Act

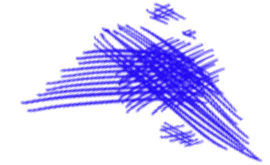

Improve

Demo time

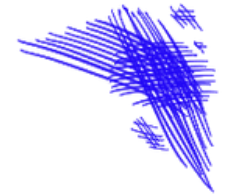

Personal context

- Organizing information is basis
- Main files: Goals, Tasks, Decisions

Planning my day

Why: **Organize** multiple projects, both personal and vocational

My saved prompt: /plan

Weekly review

Why: Reflection on what I have done. Plan and **improve**

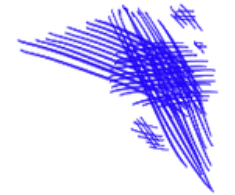

My saved prompt: /weekly-review

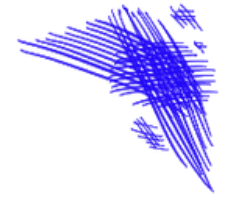

Trend research

Why: Staying up to date with news. **Capture** and create.

My saved prompt: /trend-research

Finding connections

Why: Innovation happens when you **link** knowledge from different fields.

Recap

Basis is organization → Goals, Tasks, Decisions

Planning → Organization

Weekly review → Improvement

Trend research → Capture, Act

Finding connections → Link information

Your turn..

Preparation

- thinkink.io/workshop
- thinkink.io/workshop-download

Workshop

Claude code: /scaffold

Claude Desktop: Type “scaffold”

Others: Paste prompts/interview-me-goals.md

Creating structure

/scaffold

Capture

Organize

Act

Improve

Define your goals

Improve

Improve

/weekly-review — end-of-week reflection

/goals — review and update goals

Capture

Organize

Act

Improve

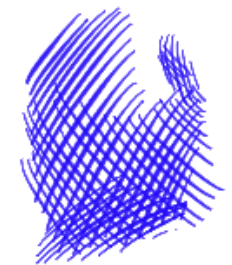

Automation (comes later)

/weekly-review

/morning

/evening

/find-connections

Next steps

Automated execution

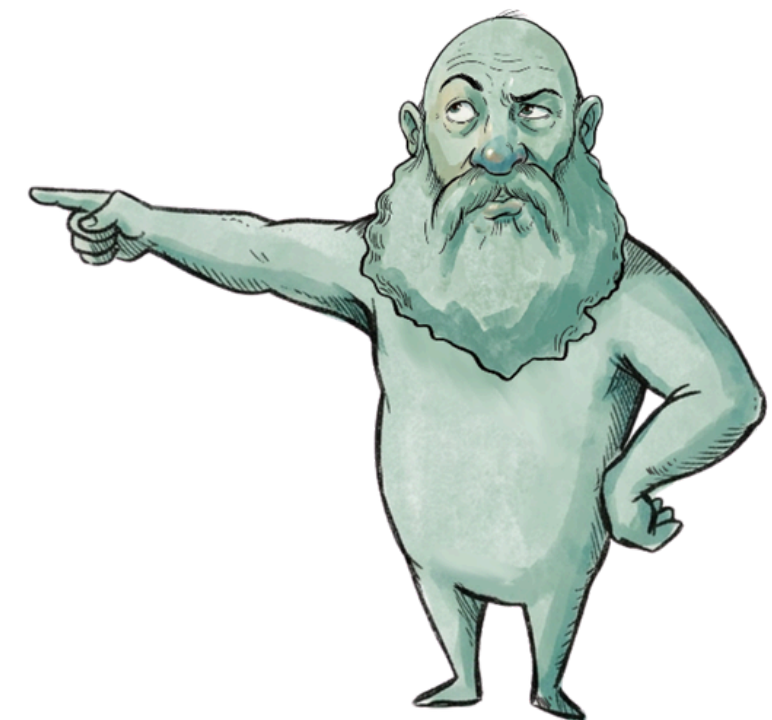

Centralized logging

Presentation layer

With Great Power...

- No passwords, no API keys, no .env files
- Learn from OpenClaw
- Local LLMs for sensitive data
- Separate your "vaults"
- Isolated agent environments

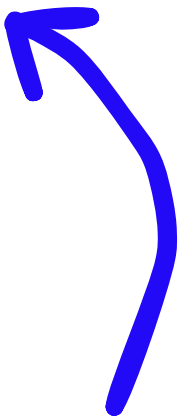

How to Proceed from Here

- Start simple and expand
- Find your UI (presentation layer)
- Find a system that works for you
- Write both for you and agents
- Use it!

Thank you!
